Subject: 2019 Wisconsin Air Monitoring Annual Network Plan Submittal

Dear Mr. Nam:

The 2019 Wisconsin Air Monitoring Annual Network Plan that provides documentation of the establishment and maintenance of the Wisconsin air monitoring network that consists of a network of SLAMS monitoring stations that can include Federal Reference Method (FRM), Federal Equivalent Method (FEM), and Alternate Reference Method (ARM) monitors that are part of State and Local Air Monitoring Stations (SLAMS), National Core Monitoring Network (NCore), Chemical Speciation Network (CSN), Photochemical Assessment Monitoring Stations (PAMS), and special purpose monitoring (SPM) stations was submitted electronically on 6/27/18. Where applicable, the plan includes statements of whether the operation of each monitor meets the requirements of appendices A, B, C, D, and E of this part.

Wisconsin 2017 Act 159 required exclusion of the Sheboygan Kohler-Andrae air monitoring site from the network plan, as well as a request for a waiver of all SIP requirements that may be implicated by discontinuing the use of the Kohler-Andrae monitor. Act 159 allows for submittal of a revised plan, including the air monitoring site at Kohler-Andrae State Park. On June 21, 2018, EPA responded to the initial submittal of the 2019 Wisconsin Air Monitoring Annual Network Plan, noting the plan was not approvable as submitted due to the omission of the Sheboygan Kohler-Andrae monitor. The revised version of the plan includes the Sheboygan Kohler-Andrae monitor.

In compliance with 40 CFR 58.10, I am submitting the 2019 Wisconsin Air Monitoring Annual Network Plan. Per EPA's request, we are submitting these documents electronically too. If you have any questions about this annual network plan, please contact Grant Hetherington at (608) 266-1552.

Sincerely,

Katie Praedel, Section Chief  
Air Monitoring Section
